## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1 – 27 are allowed over the prior art of the records.
2. The following is an examiner's statement of reasons for allowance: The prior art of the record fails to anticipate or fairly suggest, a method for performing surveillance comprising: monitoring an indicia of manual imaging sensor control; switching to automatic imaging sensor control when said indicia indicates that manual imaging sensor control is not being used and switching to manual imaging sensor control when said indicia indicates that manual imaging sensor control is being used; determining imaging sensor coordinates for at least one imaging sensor; mapping the imaging sensor coordinates to image pixel coordinates; and processing the image pixel coordinates to determine information regarding an actual detection of at least one object in motion within a scene that is captured by the at least one imaging sensor; wherein the processing comprising generating parameters indicative of a first motion detection threshold, generating parameters indicative of a first consistent motion of the object over a predetermined number of captured images; generating parameters indicative of isolation of the pixel coordinates in a particular image and generating parameters indicative of a secondary consistent motion of the object over the predetermined number of captured images, as specifies in the independent claims 1, 6 and 18.

Claims 2 – 5, 7 – 17 and 19 – 27 are dependent to allowable independent claims 1, 6 and 18 and as a whole consider allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
